## Filtration Specialists

## Your one stop agricultural filtration specialist

Being distributors of the foremost filter manufacturers keeps ABC up to date with the latest technology developments in filtration.

Our suppliers are responsible for producing the original equipment filters for many of the leading agricultural machinery manufacturers, including Case, John Deere and New Holland.

One such example of the latest technology is Donaldson's PowerCore™ air filters which are fitted on the most recent John Deere models.

We are able to identify high quality, compatible replacement filters for all brands of agricultural machinery, including:

- Massey Ferguson
- Case
- New Holland
- Fendt
- Renault
- Ford
- John Deere
- Zetor
- Class
- Marshall
- Same
- David Brown

## Vintage Vehicles

ABC is here to help keep your tractor working regardless of its age. For vintage models we can supply appropriate filters, many of which are now obsolete.

## Cab Air Filters

ABC offer a wide range of cabin air filters. We supply both the standard cab filters and the activated carbon cab filters suitable for crop spraying.
